31 January 1955

Mr. John T. Campbell, Head  
BBC Monitoring Service  
Caversham Park  
Reading, Berks., England

Dear John:

Thank you for your letter of 21 January 1955 confirming your plans.

I fully understand your inability to give me any details on your fiscal outlook but I hope that if you are able to provide any information before the meeting that you will send it along. This will allow us to give more careful consideration to our joint overall problems before you arrive.

STAT

[ ] is a member of the Army-Navy Club in town which, in addition to being centrally located, is very reasonable. (I think it is \$5.00 a day.) He has made a reservation for a single room and bath for you from 14 March to 19 March, both dates inclusive. I would appreciate word from you if this is acceptable.

Reservations have been made for us to leave Washington on the 20th of March for San Francisco but I do not have the flight number or time at this date. We will be travelling in the new DC-7's, I believe. I think that you should get open-dated tickets for that trip and for the return trip from San Francisco to New York. I believe that we can drive from San Francisco to Santa Rosa and back so that no ticket will be required for that part of the journey. At worst, we could travel by bus.

STAT

I have notified [ ] that Mr. Lean will be in San Francisco from 27 February to 3 March and have asked her to extend every courtesy to him when he visits the station. Attached you will find her home and office addresses and phone numbers. If you will give this information to Mr. Lean he may then call [ ] when it is convenient for him to go to Santa Rosa.

STAT

Sincerely,

STAT
